Examination Accommodations

Any test accommodation must be approved, and the payment made, prior to scheduling a test. If a test is scheduled first, without approval and payment, the accommodation will not be recognized and granted.

Accommodation documents must be uploaded into the system using a PDF or JPG format.

A test taker or their representative may request the accommodation. A valid email address will need to be entered into the application, so communications are received by the test taker to complete the accommodation process.

There is an email ticket that is generated once the application is submitted. The test taker must respond and create an accommodation account and log in to activate the ticket to move it forward in the PSI system. The ticket will track all updates and communications for the accommodation request. The test taker is responsible to monitor the request ticket communications and updates so PSI may deliver the accommodation request for testing.

Once the request is submitted it may take up to 14 business days to process.

If a test taker does not successfully submit, follow their ticket, and correspond with the PSI accommodations team, the request may be delayed or canceled.
